Design Engineering Internship

Yerevan, Armenia / Part time

INTERNSHIP OPPORTUNITY: Are you a problem solver ready for a challenge? This is a great opportunity for anyone planning to begin a career in the IT industry. Through our Intern program on the job training and mentorship, you will gain experience with cutting edge technology alongside engineers and computer scientists. In case of completing internship successfully, the candidate may be offered a full-time job at the company. Besides, our internships offer you the opportunity to:

- Explore Career Opportunities - by working in the field you have chosen, you can receive an inside look at your potential career path
- Network - meet a variety of people in your chosen profession through your internship, allowing you to form relationships you can build on in the future
- Find Mentors - certain individuals can help guide you through your internship and expose you to opportunities to which you can aspire.

DESCRIPTION: This position is for individuals interested in a broad area of hardware/software design development. The ideal candidate should have strong academic credentials (high GPA level) and experience working in a teamwork environment, and have interpersonal skills to help optimize our teams. Familiarity with hardware or software tools should be appropriate for your academic level.

REQUIRED QUALIFICATIONS:

- Bachelor's degree or student in computer science, engineering, science or similar technical field
- Good analytical and problem solving skills
- Basic knowledge of C/C++
- Strong communication and interpersonal skills
- Proved high level of knowledge in Math and Physics
- Ability to solve problems independently and as part of a team
- English written communication skills (oral English communication skills are desirable)
- Ability to learn and adapt to new technologies

RESPONSIBILITIES

- Duties as assigned

APPLICATION PROCEDURES: All interested and qualified candidates are welcome to send their CVs to: lucine_stepanyan@kwc-sys.com . In the subject line of your e-mail message, please mention the title of the position you are applying for.

ABOUT COMPANY: Knightsbridge Wireless Communications (KWC) is the industrial IoT (IIoT) systems solution provider that solely architects the entire IoT project, incorporated with edge computing, AI, Machine Learning and Deep Learning techniques, Cloud networking and end-to-end data security. Company delivers a digital ecosystem solution, enabling OEM partners to efficiently create, build and manage the data driven connected products and systems at the heart of the IoT.
